

KING ALBERT WAS GIVEN A SPLENDID RECEPTION ON REACHING NEW YORK

Salutes of Guns Fired as His Steamer Passed Up the Harbor and 12 Destroyers Escorted the George Washington to Her Pier.

KING EXPRESSES HIS PLEASURE IN COMING

Secretary Lansing, Secretary Baker, General March and Others Greeted the King of the Belgians and Other Members of the Royal Family.

New York, Oct. 2.—Albert, king of the Belgians, Queen Elizabeth, and Prince Leopold, who came to America to personally express their gratitude for the aid extended by a generous nation to their martyred country, received a noisy welcome to New York when aroused at dawn by the firing of salutes as the transport George Washington steamed past the outer harbor fortifications. It was a truly American welcome, such as greeted returning heroes from France since the cessation of hostilities and not even deference to royalty was observed to still siren or whistle.

The George Washington, formerly the North German Lloyd liner of that name, arrived off the Fire Island lightship at 5 o'clock yesterday. She anchored at sunset three miles east of the Ambrose Channel lightship. A flotilla of 12 destroyers under command of Rear Admiral Horace Plunkett, escorted the George Washington up the narrows and up the bay to Army pier, No. 3, at Hoboken. Several other municipal boats and yachts proceeded to quarantine to greet the vessel, but did not form part of the official fleet.

As the ship came up the harbor salutes of 21 guns were fired from Castle Williams, on Governor's Island, and from the coastal fortifications. In response, the George Washington broke out at her masthead the flag of the Belgian royal family and the national banner. American warships responded by dipping their colors.

King Albert's Message to American People.

King Albert to-day issued the following message to the American people: "At the moment of setting foot on American soil the king of the Belgians desires to express to the people of the United States the great pleasure with which the queen and himself are coming to its shores at the invitation of President Wilson. The king brings to this nation of friends the testimony of the powerful aid, moral and material, which America gave them in the course of the war. The name of the commission for the relief of Belgium will live eternally in the memory of the Belgians. The king rejoices at the prospect of visiting the cities whose hearts fought with the cities of Belgium and whose continual sacrifices knew no measure. He happily will be able to meet the eminent citizens, who, animated by the highest thoughts, placed themselves at the head of organizations for relieving the sufferings of the war. The American people, their splendid army and their courageous navy powerfully served a great ideal."

With the welcoming party at the pier were Secretary Lansing, Secretary Baker, General March and Breckinridge Long, third assistant secretary of state. The royal visitors will be "incognito" during the first 24 hours of their stay here. Seclusion will be maintained at the Waldorf-Astoria, where they are assigned to the suite on the third floor that was reserved for General Pershing while he was the guest of the city.

The official greeting of the city will take place to-morrow morning when the royal party will be taken in automobiles to one of the North river piers, whence they will proceed by boat to the Battery. Later there will be exercises at city hall.

To-morrow afternoon, the royal party will see 50,000 school children in Central park and in the evening they will attend a performance at the Hippodrome.

Saturday's program includes visits to the Woolworth building, the stock exchange and the produce exchange by the king and luncheon at the Bankers' club as the guest of the committee for relief in Belgium. In the afternoon the royal couple will receive the representatives of various war welfare organizations in the exhibition room of the New York public library and in the evening the king will attend the mass meeting of the American Legion in Madison Square Garden.

200 MAGAZINES SUSPENDED.

Because of the Strike in New York Printing Plants.

New York, Oct. 2.—More than 200 publications, including some of the leading magazines of the country, have suspended publication pending an adjustment of the labor situation in 250 printing plants resulting from a lockout instituted by the employing printers against all pressmen not affiliated with the International union. There is an almost complete tie-up in all branches of the printing and publishing business in New York, outside of the newspaper plants.

Rev. and Mrs. W. J. M. Beattie of Enosburg Falls are visiting with friends in Barre Town and this city.

RIOT SPIRIT FLAMES AT ELAINE, ARK.

U. S. Troops Rushed to the Place and Hundreds of Heavily Armed Deputy Sheriffs Patrol Streets—All-Day Battle was Fought Yesterday.

Helena, Ark., Oct. 2.—With 500 federal troops due to arrive to-day from Camp Pike, and several hundred deputy sheriffs and civilians, all heavily armed, moving about the affected area, officials here believed that the situation arising from yesterday's race trouble at Elaine, where nine persons were killed, would be brought under control to-day.

After an all-day fight yesterday in the streets of Elaine between white posses and organized negroes, armed with rifles, the situation was brought under control to-day. In an effort to bring an end to the trouble.

Fighting ceased only with the coming of darkness and negroes were reported banded in the cane brakes awaiting daylight to renew hostilities.

Governor Brough, who is accompanying the troops, was expected to call conferences of representative whites and negroes during the day, in an effort to bring an end to the trouble.

The trouble started with an attack Tuesday evening upon W. A. Adkins, a special railroad officer, Charles Pratt, a deputy sheriff, and a negro trustee, who had gone by automobile to Elaine to arrest a bootlegger. The officers stopped near Elaine to repair a tire and were fired upon by unknown persons. Adkins fell dead and Deputy Pratt was wounded. The negroes escaped and called the sheriffs here by telephone. A posse was immediately sent to Elaine.

A large number of negroes were taken prisoner by the posse and most of them brought here. One white man also was captured. He had been identified as U. S. Bratton, Jr., of Little Rock, Ark. According to the authorities, a quantity of questionable literature was found in his possession. He has been charged with murder in connection with the killing of Adkins.

ATTACK ON WOMEN RENEWED IN OMAHA

Negro Suspect Captured by U. S. Troops and Held Against Mob Violence.

Omaha, Neb., Oct. 2.—One negro suspect was under arrest to-day in connection with the attack on Mrs. H. G. Wisner, a white woman, yesterday afternoon. Military authorities, who have been in control of the city since last Sunday's rioting, refused to tell where the negro was confined or the extent of the evidence against him.

The attack, one of a series of 28 similar crimes since June 1, occurred within a few blocks of army headquarters, where a machine gun is mounted. News of the crime was withheld from the afternoon papers at the request of Major General Leonard Wood, who is actively in command of the situation.

The number of troops in the black belt was doubled after the attack and 600 soldiers were on duty in that section to-day.

The attack on Mrs. Wisner occurred at 3 o'clock at her home on the edge of the black belt. She was cleaning windows when a negro threw a cloth over her face and bound and gagged her. Her two children, aged 12 and eight, gave the alarm and the military forces stationed a cordon of troops around the neighborhood.

CERTIFICATES FOR 66 VERMONTERS

Showing That Their Potatoes Meet the Standard Requirements.

Harold L. Bailey of Bradford and A. H. Gilbert of Burlington, who have been inspecting seed potato fields for the state department of agriculture, have completed their work and Commissioner E. S. Brigham has issued certificates to 66 growers, covering 168½ acres. Five certificates were issued to growers in Addison county, four in Franklin county, 21 in Orange county, two in Orleans county, 17 in Rutland county, five in Washington county, two in Windham county and 10 in Windsor county.

A certificate from the state department means that potatoes from the certified fields are considered to be suitable for seed purposes under the standards adopted. A certain percentage of dangerous diseases disqualifies a field for certification.

There is a good market for potatoes of this quality in the southern states, where the climate is too warm for the potato to reach a normal development.

U. S. MAY HAVE AVERTED WAR

Intervention Surely Prevented Bloodshed at Trau, Dalmatia

ADMIRAL KNAPP'S OFFICIAL REPORT

Americans Acted Only at the Request of Italian Admiral

Washington, D. C., Oct. 2.—Intervention by the American naval forces at Trau, Dalmatia, prevented bloodshed "which would perhaps have resulted in a state of actual war between Italy and Jugoslavia," according to a report from Admiral Knapp, commanding American naval forces in European waters, transmitted to the Senate to-day by Secretary Daniels.

American sailors were not landed, Admiral Knapp said, until American and Italian officers who had been sent to Trau had induced the Italian raiders to withdraw after they had surprised and captured the small Serbian garrison. One Italian and three men were left behind and the American bluejackets were sent ashore to protect them and police the town until Serbian troops could arrive.

The Americans acted, Admiral Knapp continued, at the request of the Italian admiral in command on the Dalmatian coast and the force was withdrawn immediately after the Serbians arrived and took charge. Meantime, the commanders of the Italian raiders were ordered to trial by court-martial by the Italian admiral.

EXPRESS CRASHED INTO WRECKAGE

After Applying Brakes, Engineer and Fireman Jumped and Were Hurt—No Passengers Were Injured.

Philadelphia, Oct. 2.—The Metropolitan express on the Pennsylvania railroad, which left Chicago yesterday morning for New York, was partially wrecked 19 miles west of Philadelphia to-day.

A westbound freight train was derailed on a sharp curve and the wreckage of 20 cars piled high. In less than two minutes the express crashed into it. Rain was falling and there was a fog. The engineer saw the wreck too late. After applying the brakes, he and his fireman jumped. Both were hurt.

The engine, baggage car and four sleepers of the Metropolitan were thrown off the track. The dining car and four other sleepers remained on the rails. No passengers were injured.

F. A. Walker, a surveyor, testified yesterday afternoon to running lines from points which Mr. Morse showed him as the corners and other markings on the boundary of his land. The last of the arguments and the judge's charge occurred this afternoon.

BODIES OF MISSING AVIATORS FOUND?

Chicago Man, Returning from Mexico, Said That He and William Rose Uncovered Bodies on the Beach of the Bay of Los Angeles, Lower California.

Nogales, Ariz., Oct. 2.—The bodies of two men dressed in army uniforms and with insignia of the aviation corps in their pockets, found buried on the beach of the Bay of Los Angeles, Lower California, about 300 miles south of San Diego, are believed to be those of Lieutenants Frederick B. Waterhouse and Cecil H. Connelly, according to a report made to military authorities to-day by Joe Allen Richards of Chicago on his arrival from Guatmas, Mexico.

Lieutenants Waterhouse and Connelly disappeared six weeks ago while on border patrol duty between Yuma, Ariz., and San Diego. According to Richards, the bodies were found by himself and William Rose Sept. 22.

In the pockets were insignia of the aviation corps and jewelry, which Richards and Rose took as a means of identification. Richards said the Mexican authorities at Santa Rosa took the jewelry from them.

The chalk talk held at the home of Mrs. A. J. Young, 33 Eastern avenue, by Mrs. Alice Wood of the Boston Mycological club, was listened to with much interest, and all were in favor of becoming members of a Barre Mushroom club. Watch for further notice.

SEN. REED BOMBARDED WITH EGGS AND NOT ALLOWED TO SPEAK

Tried to Speak Against the League of Nations at Ardmore, Okla., Last Night—Official Investigation May Be Made.

Ardmore, Okla., Oct. 2.—Whether an official investigation would be made of a demonstration here last night during which eggs were thrown at United States Senator James A. Reed of Missouri, when he attempted to deliver an address in opposition to the peace treaty and the league of nations, was the subject of an investigation to-day.

Although several officials declared that a considerable discussion to-day, an investigation should be made and those guilty of participation punished, they pointed out that as the egg throwing took place after the light wires had been cut and the building was in darkness it would be virtually impossible to identify the persons who took part.

Senator Reed left Ardmore late last night for the west without commenting on the demonstration.

The demonstration followed a mass meeting Tuesday at which resolutions were adopted censuring the senator for his opposition to the league of nations covenant and urging that he cancel his speaking engagement.

Mayor Freeman was in the midst of an explanation that he was introducing the speaker because he was mayor of the city and not because he supported the views of those opposed to the league covenant, when the lights went out and volleys of eggs hurled through the air toward the stage.

When the lights were restored it was found that virtually none of those on the stage, including the senator, the mayor and members of the reception committee had escaped the effects of the eggs.

Later, officials attempted to continue the program, but the crowd refused to listen. Efforts by Senator Reed to deliver his address were met by jeers, hisses, cat calls and cheers for President Wilson.

Finally the meeting was abandoned and Senator Reed was driven to his hotel.

One shot was fired in the course of the trouble.

UNITED STATES MAY EXERT PRESSURE

In Order to Bring About Termination of Dispute Over the Adriatic Question—May-Withhold Financial and Other Material Support.

Washington, D. C., Oct. 2.—Plans are being considered, it became known here to-day, to apply strong American pressure to bring about termination of the dispute over the Adriatic question, as well as in other cases where trouble has arisen jeopardizing the authority of the supreme council and threatening to set at naught its decisions founded upon powers conferred by the armistice and the peace treaty.

Unless the Adriatic question is settled satisfactorily within a few days and unless the council's decisions are carried out, the American government may consider the advisability of withdrawing for the present at least any further financial or other material assistance to the other powers.

To allow Italy's claim to Fiume solely on the basis of its forcible occupation by D'Annunzio's irregular troops, in the opinion of members of the supreme council in Paris, would involve recognition by the entente of Rumania's claims in Hungary; Greece's claims to large portions of Turkey and even possibly Germany's claims to rich portions of western Russia. It is felt that admission by the council of the right of any nation to seize territory regardless of pledges to refrain from aggression would be regarded as tantamount to an abandonment of the basic principles upon which the peace conference was assembled and as threatening a permanent peace.

Recent advances from Europe are regarded as indicating that some of the entente governments themselves or their representatives have not fully sustained the council in decisions in which they participated.

The entire body of employees at Barclay Bros. attended and many of Mr. Alonso's compatriots accompanied the remains to Hope cemetery, where interment took place. Several automobiles carried the mourners to and from the burial grounds.

WILL NOT CONFER WITH STEEL MEN

Gary Made a Positive Statement in Senate Investigation To-day

IN RESPONSE TO SEN. WALSH'S QUERY

Witness Denied Hiring Foreigners to Prevent the Unionizing of Plants

Washington, D. C., Oct. 2.—Charges of union leaders that the United States Steel corporation employed many foreigners in order to prevent the unionizing of its men were denied to-day by Elbert H. Gary, chairman of the corporation's board, when he resumed his testimony before the Senate committee investigating the steel strike.

"Was the question of employing foreigners who possibly had feelings against this country decided by the board?" asked Chairman Kenyon.

"No," said the witness, "the question was never raised."

"But you think foreigners are responsible largely for precipitating this strike?"

"Yes, but if we had known there was a substantial number of the kind of foreigners who are resorting to violence and who I believe are under the leadership of outsiders, we wouldn't have employed them."

"If you have no unionism," Senator Kenyon asked, "who is going to speak for the men?"

"The men," said Gary, "can individuals without union present their views?"

Judge Gary replied that as has been frequently, individuals or committees of workmen could present grievances to foremen, superintendents, managers or even higher officials.

Judge Gary analyzed steel strikers as belonging to three classes. First there are Americans, he said, "then a large number of foreign-born workers, and finally a small minority of foreigners, not over 15 per cent of the total, who are actually engaged in promoting the strike."

Chairman Kenyon read principles of the war labor board promulgated during the war, guaranteeing the rights of collective bargaining to employees and asked if Judge Gary endorsed that.

"If you mean what the labor unions call collective bargaining, no," Judge Gary responded. "If you mean organization of plant committees to present grievances, yes."

"I'd like to know what the difference is between you and the labor unions," said Senator Jones, Democrat, New Mexico.

"Unions are endeavoring to compel employers to contract with them," Judge Gary answered, "and when that is done, non-union men cannot be employed."

"What good is it for men to belong to unions?" asked Senator Walsh of Massachusetts, "if when they join you refuse to discuss anything with their representatives?"

"Is it right," Judge Gary countered, "for 10 per cent of men who may belong to unions to dictate conditions for the other 90 per cent?"

"But your position is the same," Senator Walsh continued, "even if 90 per cent of the men were organized, you would not confer with their representatives."

"I haven't said so," Judge Gary replied. "That has not come up."
